

2004 Holiday Cards!

Help support **The Congenital Heart Information Network** and promote awareness of CHD by purchasing our beautiful holiday cards! The art for our note cards was created by talented young artists whose lives have been affected by congenital or childhood onset heart conditions. The cards are blank inside, and the back of the cards includes our logo, information about the artist, and information about Congenital Heart Defects.

Holiday Cards are available in two styles:

- **50 cards** that are all of the same design for **\$25.00**. There are four designs to choose from (see "Card Sets" below).
- An **assortment of 26 cards** for \$14.00. The assortment contains 13 different designs, illustrated to the right (see "Assorted Cards").

Prices include U.S. shipping; please add \$2.00 per order (not per set) for shipping outside the U.S.

This year, we are again delighted to share proceeds from card sales with local support groups. If you are a member of a local support group, please enter the name of the group, and their city and state into the "Support Group" field below.

Cards may also be purchased by credit card or check by using our secure server at www.tchin.org/cards.

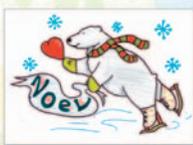

Please allow 5-8 days for delivery after payment is received. Questions about the cards or the ordering process may be emailed to cards@tchin.org.

Thank you for supporting the Congenital Heart Information Network!
